CUSTOM OPTIONS | COVER BRANDING

Good customization requires much more than you can do with a stock product. Hence customization is often implemented right from the start of the production process.

DEBOSSING

PU

FABRIC

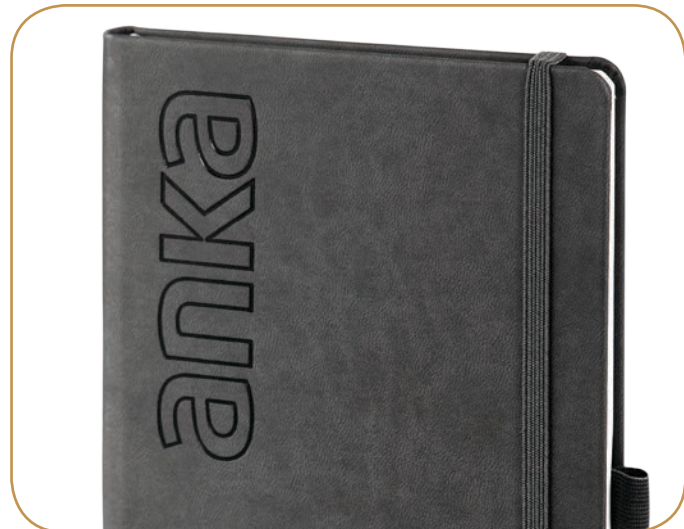

PAPER

Always go back to classics...

Debossing is simply forcing a collapse of 0.2 mm on the print area thru hot stamping on faux leather. The high-frequency accuracy enables a set and clean look. Also “the burn” as a result of hot stamping transforms the color of the print area into a darker version of the cover color which gives the branding a natural looking variation.

When all you need is just an elegant logo on the cover then debossing is the best customization.

CUSTOM OPTIONS | COVER BRANDING

ENTIRE SURFACE DEBOSSING

PU

FABRIC

PAPER

Best way to leave lasting impressions...

An image or a text that spreads over the whole surface of the cover adds tremendous value to the brand image – a lasting one thanks to the evergreen stamp.

Please keep in mind that this kind of cover branding calls for planning from the very beginning of the production.

CUSTOM OPTIONS

SCREEN & UV (DIGITAL) PRINTING

- PU
- FABRIC
- PAPER

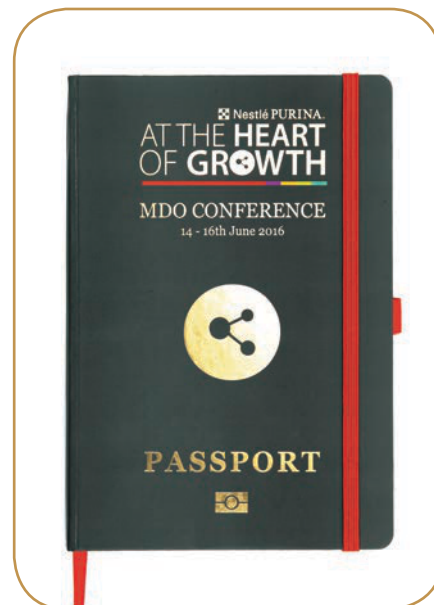

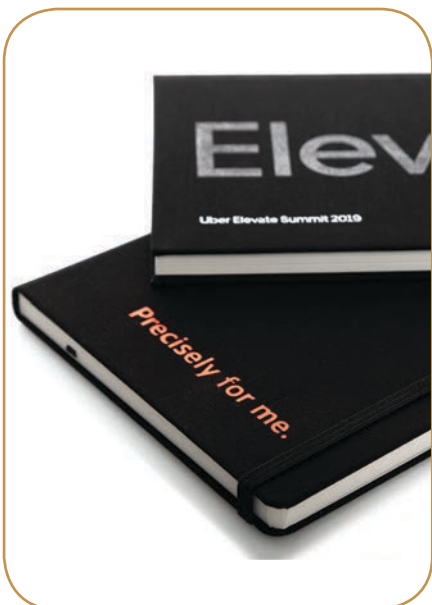

When "color" is of the major defining elements of your brand message then screen printing is the best way to go. Contemporary printing techniques like UV Digital Printing allow any image you wish to be on your notebook's cover.

FOIL PRINTING

- PU
- FABRIC
- PAPER

Creates a stunning impression when implemented correctly. It enables your brand to stand out by picking a contrasting foil color compared to the color of the cover.

CUSTOM OPTIONS | COVER BRANDING

OFFSET PRINTING

PU

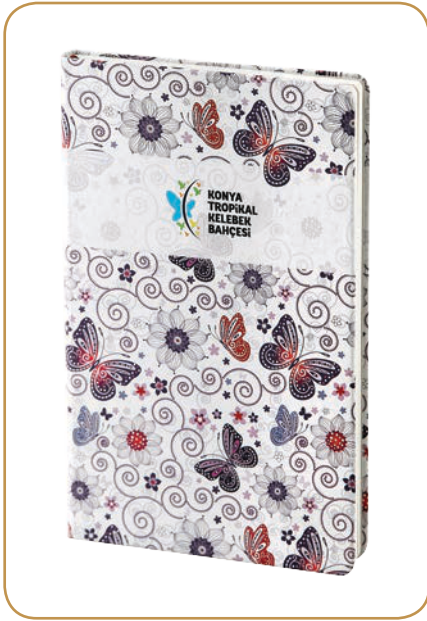

FABRIC

PAPER

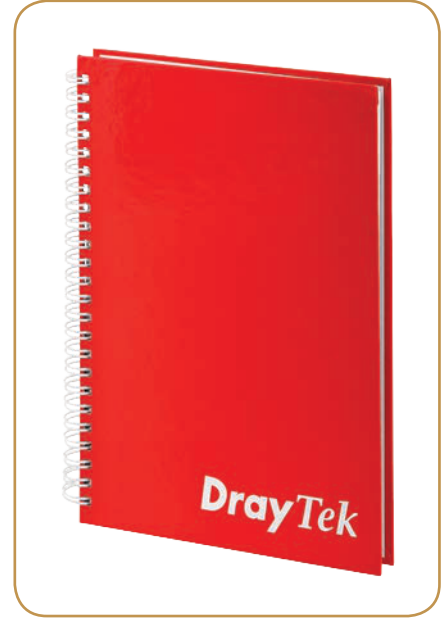

Offset printing lets us implement any kind of printing that is possible on the paper also on the cover. Defining colors of the brand message, must-have photographs and more. Pick one among the matt or glossy cover options.

Unleash your creativity!
It's difficult to promote a brand in a crowded world.
However we produced extraordinary notebooks
for many of our clients to overcome this challenge.

We'll achieve more together

INSPIRATION

Creativity with Purpose

VODAFONE TURKEY

When the ad agency of this leading GSM operator of Europe asked us an unusual notebook Lilyum was the perfect choice for obvious reasons.

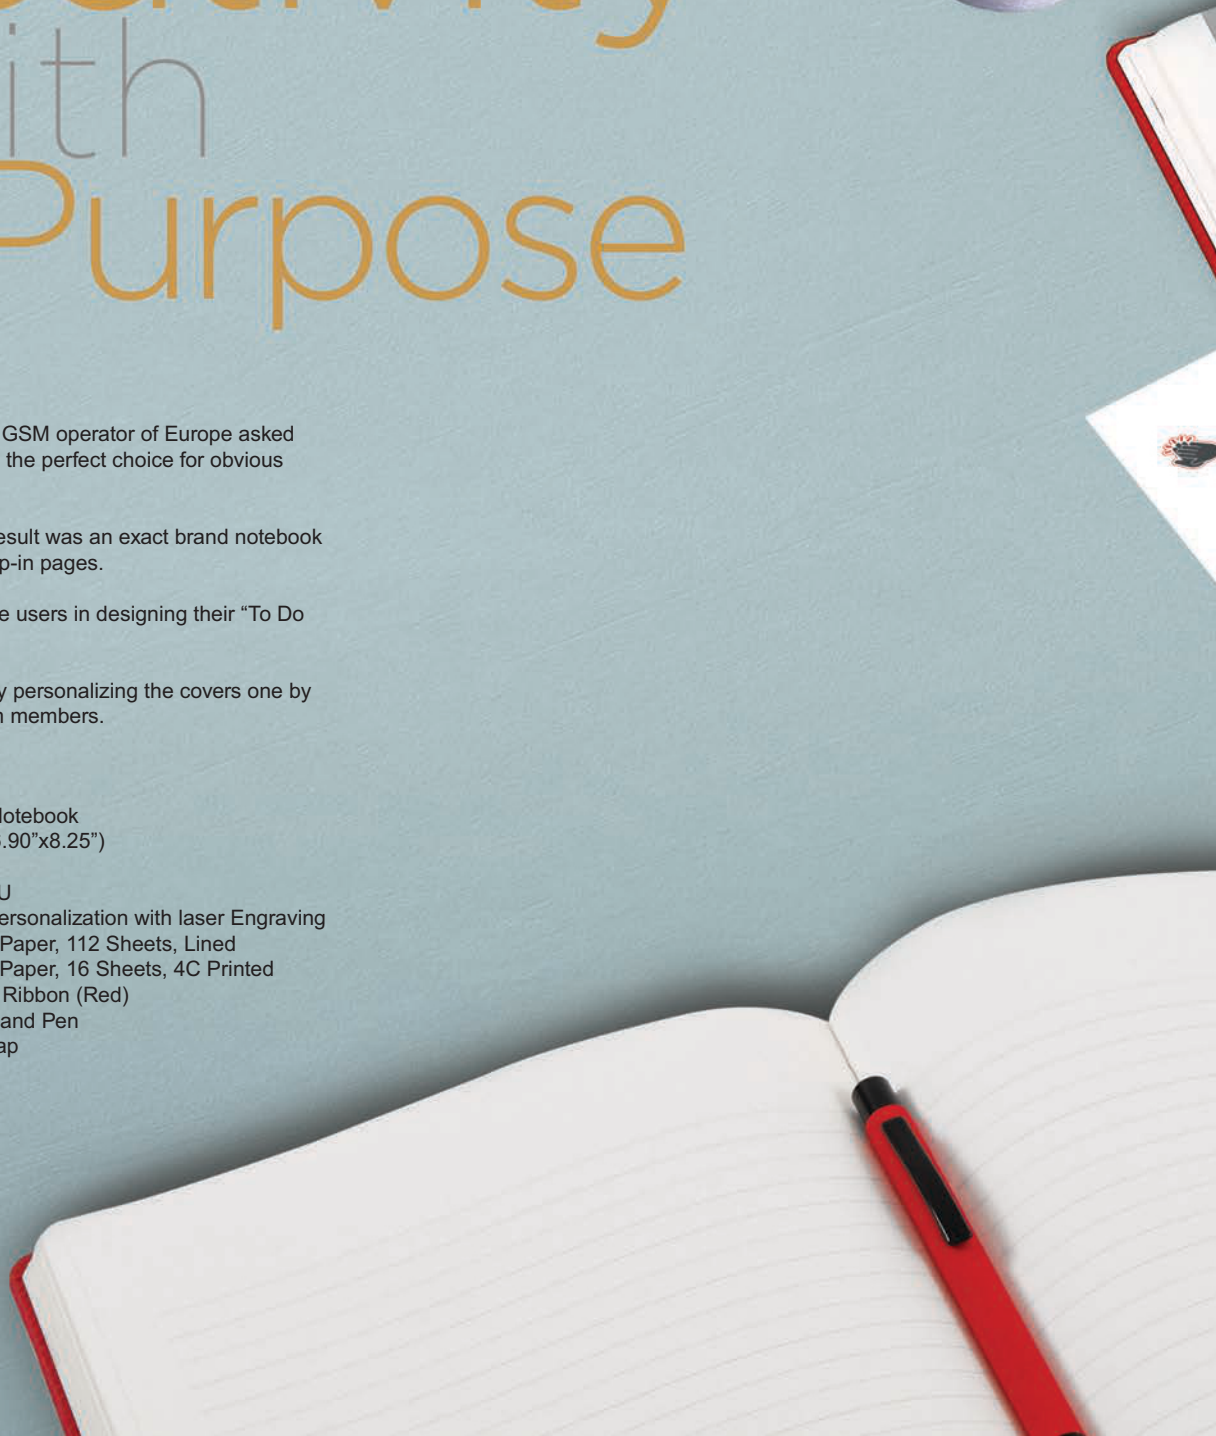

We honored their wish list and the result was an exact brand notebook with its size, inner pad design and tip-in pages.

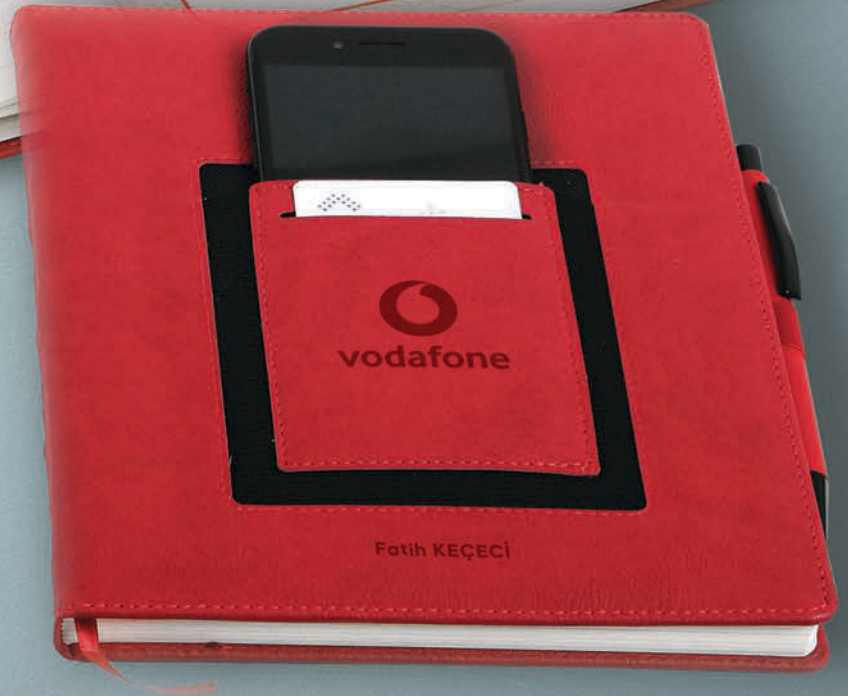

We even produced stickers to aid the users in designing their "To Do List" page.

Lastly, we perfected the notebook by personalizing the covers one by one by the names of Vodafone team members.
